

## WEBSITE DESIGNER

We are looking to expand our creative team with the addition of a lively, enthusiastic, honest and talented designer.

If you are passionate about the new media industry, have strong opinions about good and bad design, are totally confident and believe in the integrity of your work, and would like to get your teeth into a creative role – we want to hear from you!

When you join our team you will be working with some great clients, from big established names to smaller startups with some fresh ideas.

You will have full control over your output, including working with client directly. You will also be working with strong members of the web development team.

If you are the designer we are looking for, you will be 100% committed to a successful career with Base Creative, have a great looking portfolio and be ready to put your flare and creativity into action from day one.

### JOB ROLE

**Graphic Design** – creating artwork and original material for designs for static websites, dynamic websites, flash based websites and html emails in Photoshop as per the clients spec and present these as appropriate.

**Website & Email Build** – create designs for static websites, dynamic websites, flash based websites and html emails in Photoshop as per the clients spec and present these as appropriate.

**Recording** – log hours, expenses and extras spent on each individual project & make the projects manager aware of this
