

WEBSITE DEVELOPER

We are looking to expand our development team with the addition of a lively, enthusiastic, honest and talented web developer.

If you are an experienced and innovative developer – we want to hear from you!

When you join our team you will be working with some great clients, from big established names to smaller startups with some fresh ideas.

You will be part of our development team, and whilst you will be assigned your own projects you will also work in that team to accomplish shared objectives.

If you are the developer we are looking for, you will be 100% committed to a successful career with Base Creative, and will be looking to make our current team even stronger.

JOB ROLE

With other members of the development team, produce both bespoke work and improvements to the company content management system.

Undertake testing and quality assurance of both your own and others' work.

Undertake updates to existing websites.

Work with the Project Manager and clients to plan new pieces of work. This will include presenting your work to clients.

Assisting other team members with design / development work as required.

ESSENTIAL SKILLS AND REQUIREMENTS

OO-PHP, MySQL, Javascript, HTML, CSS

Desire to succeed and develop yourself personally

DESIRABLE SKILLS AND REQUIREMENTS

Knowledge of working with Subversion
